

## Website Message From the President

On behalf of the FOSCL Board of Directors, welcome to the information home of the Friends of South Coastal Library (FOSCL). We are happy that you are here.

The role of community libraries in supporting educational and community needs is now more important than ever, and FOSCL proudly supports our outstanding community library in this mission. The South Coastal Library (SCL) is continuously growing and changing to meet our community's evolving needs, and FOSCL lends support by raising funds, sponsoring events, enriching library collections, and by promoting use of library resources and services. Our members contribute their time as volunteers, advocates, fundraisers, activity organizers, outreach leaders and much more.

We fund interesting, educational and thoroughly fun programs for LBES children and families, and introduce adults and children to the rich and varied free resources, programs and activities offered through the South Coastal Library. FOSCL is a non-profit, all-volunteer organization that raises the funds for all its projects. The net proceeds from community events like the highly regarded annual Beach & Bay Cottage Tour, the Pop-Up Book Sales held at the library, and individual and sponsor donations go directly back into programs serving our community.

On behalf of the Friends of the South Coastal Library Board of Directors, welcome. We hope you will check us out and find us to be a place where you, too, would like to be more involved.

Warmly,  
Barb Calkins, FOSCL President
