

Friends of the South Coastal Library  
June 25, 2024  
Director's Report

Hello---

A few quick updates:

- The Summer Reading Challenge runs from June 1<sup>st</sup> through August 10th. Adventure Begins At Your Library is the theme, there is a program for all ages, and prizes for those who read at least 10 hours. Please follow this link <https://delawarelibraries.libcal.com/event/12488241> for more info and to sign up using Beanstack, our online system. Bring the family and some friends too—all are welcome and you don't need a library card to participate.
- Summer events are also in full swing, thanks to FOSCL. Go to <https://southcoastal.lib.de.us/> and click on Full Calendar under What's Happening to find storytimes, mermaids, dance classes, crafts and more. We are partnering with the Millville Boardwalk for some of the children's events, so check when registering for details.
- Kristin has finished the Sussex County Leadership Development Program. It was a year of hard work but she sailed through it (as we all expected) and now has another certificate and more training. Give her a kudos next time you see her.
- Between finishing staff evals, budgets, year-end spending, and the enormous amount of time that this building—HVACs, phones, dead photocopier, garden irrigation issues, ants swarming the mailbox—have consumed, I am just doing a full day at work on Tuesday and skipping the FOSCL meeting. Splitting the day isn't really possible since the new staff copier is also being delivered sometime that day. However, you can call me anytime with questions, including during the meeting. If my eyelids are open, I will do my best to answer. And if they're not open, I'll still answer, but no guarantee that the answers will make sense.

Sorry to miss you, but I am running trying to catch up on other work pushed aside by all this.  
Thanks for understanding--Sue
