

Systems Committee Report

1. Liz was trained by Kathy Jankowski to take over the role of System Manager. Administrator rights for Wix, Directnic, Blue Host and Constant Contact were transferred to Liz.
2. The treasurer (Jackie) was successful at migrating Quick Books to the Tech Soup version for non-profits.
3. The hosting service for emails was migrated from Hostinger to Blue Host. Because of a 3 day hiatus – The archived emails were retrieved from Hostinger and the accounts – info@foscl.com, treasurer@foscl.com, president@foscl.com, and newletter@foscl.com are up to date and functional. The admin and donations accounts were deleted because they were never used.
4. Research is being done to see if we can cut costs with Wix our website host.
