

Friends of the South Coastal Library
School Partnership Committee Report
Tuesday, August 25, 2026

The School Partnership Committee held two very successful meetings since our June FoSCL gathering.

In late July our committee got together to discuss our plans for this coming year. The main topic of conversation was the success of last year's FoSCL project- bringing the 1st graders of Lord Baltimore to the library on a field trip and holding a contest to encourage the students to obtain their own library card. It was unanimously decided that we repeat our arrangement with Lord Baltimore.

On August 13th our committee asked the principal and reading specialist from Lord Baltimore and Megan Bunting from our library to join us to discuss their views on how the project went. All were in agreement to do a repeat again in 2027!

We are also considering relaunching the annual author visits and there was talk about hosting a writing contest. Stay tuned for more information concerning these topics.
