Director's Report

Hello all---

An update of all the "special events" coming our way shortly:

- A final reminder--the Volunteer Appreciation Brunch will be on Friday, Nov. 21, 2025, from 10am to 12noon at Lighthouse Sound in Bishopville, MD. If you thought you couldn't make it but now think you can, it's OK. Just let me know. The library will open late that day, at 1pm.
- The sewer system work on Kent Avenue continues. We're hoping that one "hiccup" that closed us one day is the only one. There will be a ramp at the exit lane, set up before Thursday, 11/20, for their next phase, but should only be there a few days at most.
- The library will be closed for the Thanksgiving holidays from Thursday, Nov. 27th through Sunday, Nov. 30th.
- The HVAC replacement project:
 - Heavy equipment/supplies will be crane-loaded into attic on Dec. 1st through 3rd, supposed to be done each day before 9am. Impacts exit lane.
 - Library will be closed to the public from Dec. 4th through Dec. 14th, hoping to reopen Monday, Dec. 15th at 10am. Construction may impact parking lot at times, bookdrop should be available most of the time. Depending on whether staff area has temporary heat, we may be working in there or in meeting room. There will be no heat in FOSCL office/lobby.
 - At some point, there will be no heat in building at all as propane piping is replaced, staff will not be in building during this. When we find out the day(s) for this part, I'll let you know, as hopping into the FOSCL office will not be possible. Phone access will not be available during this period, so call my cell phone if you need something quickly, or email for normal communications.
